ACKNOWLEDMENT

I Thank God Almighty for giving me all the strength, courage, and blessing to design and complete this project. It was fascinating for me to work on the Internship of UI/UX design.

During this process of the Internship, I have gained both practical as well as theoretical knowledge of great significance. I would like to thank our management for providing the necessary infrastructure and faculties to fulfil the requirements for my Internship.

I would like to express my special gratitude and thanks to our principal Dr.M.Inbavalli,Msc.,MCA., M.phil.,Ph.D., for valuable suggestions.

I convey my sincere thanks and gratitude to Ms.S.Abirami MCA ., M.phil., Head Department Of Computer Application For their support and guidance throughout the Internship. Words fail to adequately thank our project guide Ashwini Msc Cs.Assistant professor, Department of Computer Applications, Internship guide who gave me all support and helped me to clear all confusion regarding the project.

I am using this opportunity to express my gratitude to the lab administrators for considering the requirements for my Internship and satisfying me whenever I required them.

It would have been highly impossible to carry forward the project without their assistance I am thankful to my department staff who supported me throughout this Internship.

I am thankful to my parents and friends who supported me throughout this Internship. I am thankful for their aspiring guidance, invaluably constructive criticism, and friendly advice during the project work.

I am sincerely grateful to them for sharing their throughput and illuminating views on several issues related to the Internship.

EXECUTIVE SUMMARY

This report provides a comprehensive overview of my internship experience as a UI/UX Design Intern at [SIIT TECHNOLOGIES], conducted over a period of [Duration 15 days] from [12/05/2025] to [30/05/2025]. The primary objective of this internship was to apply and enhance my skills in user interface and user experience design through real-world projects and collaborative environments.

During the internship, I was involved in various stages of the design process, including user research, wireframing, prototyping, user testing, and visual design. I contributed to the development of web and mobile interfaces that aimed to improve user satisfaction and accessibility. My responsibilities included conducting usability testing sessions, creating responsive wireframes using tools like Figma and Adobe XD, and working closely with developers and product managers to ensure design feasibility and alignment with user needs.

Key projects included redesigning the onboarding flow of a mobile application, improving the accessibility of an internal dashboard, and participating in design sprints to rapidly prototype and test ideas. These experiences helped me strengthen my understanding of design thinking, usability principles, and the importance of iterative feedback.

This internship allowed me to translate theoretical knowledge into practical application, develop effective communication and teamwork skills, and gain insight into the real-world challenges of UI/UX design. The experience has significantly contributed to my professional growth and has affirmed my interest in pursuing a career in user-centered design.

ORGANISATIONAL PROFILE

SIIT is an emerging IT Service Company, we are successfully running our company from last 5years with clients support we are engaged in providing the range of software development services, IT Infrastructure services, Business process Outsourcing services, Marketing Services, Designing and Multimedia services. We provide the best software development services along worldwide and Fulfill the Customer needs with Our Innovative Ideas.

SIIT SERVICES:

- SIIT Development & Maintenance Services
- Websites and Software Development
- Digital Marketing Services
- Design & Multimedia Services
- Corporate Training ➢ Supporting AWS Services

Our Team:

- Our Managing Director, G.V. DHARMENDHAR B.E FOUNDER & MANAGING DIRECTOR of SIIT TECHNOLOGIES.
- 7 years of it experience in more than 15 technologies and Developed 100+ software's and applications.
- Conducted more than 70 workshops and seminars.

Our Achievements:

- Achieved World Record For - World's Biggest hands-on training workshop on Ethical Hacking approved by "Universal Achievers Book of Records "- 2019Websites and Software Development ➢ Achieved World Record For - World's Biggest Awareness Program on Ethical Hacking Approved by "Future Kalams Book of Records - 2019. Achieved World Record For - Most number of software's developed in a single Day Approved by World Records, India - 2018.
- Trained More than 65000 students, 100 Professors, 150 Software Engineers on Latest Technologies.
- Developed More than 100 Software's and Applications.

WORK DESCRIPTION

I participated in the full cycle of design processes, including:

Research & Discovery

- Conducted user interviews and surveys.
- Identified user pain points through empathy mapping.
- Created personas and user journey maps.

Design Process

- Sketched layouts and prepared low-fidelity wireframes.
- Designed high-fidelity UI screens for a delivery app.
- Created clickable prototypes using Figma.

Usability Testing

- Tested navigation flows with sample users.
- Gathered feedback and iterated on design solutions.

Collaboration

- Participated in sprint reviews and brainstorming sessions.
- Aligned design handoffs with the development team.

Designing for Multiple Devices

- ✓ I designed interfaces for both desktop and mobile platforms, ensuring responsive layouts that adapt to different screen sizes without compromising usability.

Accessibility Improvements

- ✓ I learned to design with accessibility in mind by using readable fonts, high contrast color schemes, and ARIA labels for screen reader compatibility.

LEARNING OUTCOMES

Technical Skills :

- Mastered tools: Figma, Canva, Adobe XD, Balsamiq.
- Learned to build responsive designs and mobile-first layouts.
- Understood the role of accessibility and design standards.

Conceptual Knowledge :

- Gained in-depth understanding of UI elements, UX psychology, and heuristics.
- Practiced design systems, grids, and spacing principles.

Soft Skills :

- Improved ability to communicate design ideas clearly.
- Developed a habit of receiving and implementing constructive feedback.
- Enhanced time management and teamwork skills.

User Personas and Scenarios :

 Developing user personas and scenarios to represent target users and their goals,informing design decisions.

Design Thinking :

 Applying design thinking methodologies to solve use-centric problems, focusing on empathy, ideation, prototyping and testing.

Visual Design:

 Understanding and applying principles of visual design, including typography, color theory, layout, and imagery, to create visually appealing and engaging interfaces.

Interaction Design:

- Designing how users interact with the interface, including navigation , feedback mechanisms, and animations, to create a seamless and intuitive experience. **Business Goals**

- Aligning design solutions with business objectives and understanding how UX/UI design can contribute to business success. **Accessibility**
- Designing for users with disabilities, ensuring that interfaces are usable by everyone, regardless of their abilities. **Ethical Considerations**
- Recognizing the ethical implications of design choices and striving to create inclusive and responsible digital products.

5 Professional Development:

1.Collaboration

 Working effectively in a team environment, collaborating with other designers, developers, and stakeholders.

2.Communication

 Clearly communication design ideas, rationale, and user insights through presentations, documentation, and protypes.

3.Portfolio Development

 Building a portfolio of design projects that showcase skills and experience, preparing for job applications or free lance work.

4.UI/UX design for Entrepreneurs

 The aim of UI/UX course to provide students with the knowledge of user-centered methods in design.

CONCLUSION

This internship was a stepping stone from theoretical design knowledge to real-world application. I experienced the complete design lifecycle, improved my problem-solving abilities, and grew more confident in my creative decisions.

The guidance from my mentors and the professional environment at SIIT Technologies played a key role in shaping my practical design skills. This experience solidified my interest in pursuing a career in UI/UX design.

REQUEST LETTER

08.05.2025

From
SWETHA S
II –MCA,
MARUDHAR KESARI JAIN COLLEGE FOR WOMEN(AUTONOMOUS),
VANIYAMBADI,
Sswetha0225@gmail.com +9025827972 08.05.2025.

To
The HR Manager
SIIT TECHNOLOGIES,
NO:2/84 Ram Nager,1st Street, Periyapanicheri, Chennai -600128.

Subject: Request for Internship Opportunity

Respected Sir/Madam,

I am **SWETHA S**, a second-year MCA student at **MARUDHAR KESARI JAIN COLLEGE FOR WOMEN (AUTONOMOUS) VANIYAMBADI** , seeking an internship opportunity at your esteemed organization. As part of our academic requirements, this internship will help me gain practical experience in [UI/UX Design]

I am eager to learn, contribute to your projects, and enhance my skills. I kindly request you to consider my application for an internship position. My resume is enclosed for your review.

Thank you for your time and consideration.

Yours sincerely,
SWETHA S

PARENT'S PERMISSION LETTER

This is to certify that I, **Mr. M.SRIDHAR** , parent of **Ms. SWETHA S**, hereby give my permission for my daughter to attend her **UI/UX Design Internship in online mode** at **SIIT Technologies**, from **May 12, 2025 to May 31, 2025**, as part of the curriculum requirement for her **Master of Computer Applications (MCA)** degree at **Marudhar Kesari Jain College for Women, (**AUTONOMOUS**)Vaniyambadi**.

I understand that she will be participating remotely from home and that she will adhere to all rules, guidelines, and instructions given by the internship supervisor or organization during this period.

I agree to hold no responsibility on the part of the college or its staff for any technical issues or unforeseen circumstances that may occur during the internship.

Yours Sincerely,

M.SRIDHAR
